AUCTION 31

Closing February 19, 1995, Sunday, 6:00 p.m. USA Pacific Time

There is something in this sale for just about everyone. The Caribbean is well-represented with several rarities. France, Germany and Italy have large listings. African and Asian new finds are described as well as many well-known items. Late Additions include a good selection of Australian 19th C. coppers in Fine condition rarely found in the USA.

Lot descriptions are of necessity brief and oriented to numismatists. Sizes are in millimeters, although larger paper pieces are often in inches. Tokens are round unless otherwise indicated. Materials are shown as Al, Br, Cop, Ir, Ld, Nkl, Zn or Pl (astic). When parentheses are used it means that the information enclosed is not in the token legend or describes some device on the token. Catalog numbers are often used to aid description, e.g. (L#101.3) and refer to the most standard U.S. work on the topic at hand. Since listing each reference would be too cumbersome, please write if you need to know which. Dollar values written simply (\$5) mean a suggested bidding range. An MB or Res. enclosed with a dollar value in parentheses (e.g. (MB\$25)) means a "Reserve" or "Minimum Bid". Grading can be only approximate in a series as varied as tokens. Especially when tokens are crudely made, grading is at best subjective. I try to be conservative and in most cases have reduced items by one grade where there is any question in my mind. Comments on my listings and methods of operation are always welcome.

Please remember that a Bidder's Fee of 9% will be added to the sale price. A change has been made in Rule 3 to increase fairness in bidding. Thanks.

NEW! Bell's Unofficial Farthings by Robert Bell, John Whitmore and our own tarheel James Sweeny. 270pp, perfect binding. Updates and adds to Bell's 1975 work. The paging includes seventeen plates of large-size photographs. \$30.00 (Calif. residents add 8.5% Sales Tax.)

BIDDING BY TELEPHONE? My number is (415) 648-8634. The best hours to reach me are 7-9 a.m. USA Pacific Time. However the least expensive and most certain means to bid is by mail even if only on a postcard. At times business may keep me away from the phone for days. I will accept bids over the phone during the week prior to closing. Current bid levels are available from the computer. However if you request such information, you must bid at least 10% over the highest in order to have your new bid qualify. For items quoting under \$10, you must bid at least \$1 more to qualify. For those who like to call in bids at the last minute, I will have all current bids posted during the last week before closing, but often at the end of the last day this is not possible when they come in rather quickly. 98% of all successful bidding is accomplished with high bids by mail.

"Cagliari is one of the hottest and most arid towns in Italy." Thus spoke Baedeker's travel guide in 1908 about the city on the south coast of Sardinia which faces on the Tyrrhenian Sea. To either side of the town on the west and east are two large marshes from which salt is extracted. They are named Stagno di Cagliari and Stagno di Molentargius. The old San Bartolomeo Prison stood on a small peninsula just south of town, the Capo Sant' Elia. Baedeker further explained that the salt marshes were worked by prisoner. The token dated 1907 was issued by a royal authority in charge of gathering the commodity and was, presumably, used as some form of payment to the inmates. (See Lot 891.)
